

Hey Alberta parents! Ms. Gaby here!

I know this is a challenging time for so many families with the Alberta teacher strike. Sudden changes in routine, uncertainty, and trying to keep your kids learning at home can be a lot!

As a teacher myself, I so appreciate the dedication of both parents and teachers in ensuring Alberta students have the support and resources they need to thrive.

That's why I want to remind you that [Teachers' Corner](https://teacherscorner.tv) is a FREE resource available for teachers and parents to use. Each lesson is created by educators, aligns with Alberta curriculum, and pairs with a safely streamed show on [Kidoodle.TV](https://kidoodle.tv). There are also printable activities to keep your kids learning, engaged, and most importantly happily busy!

I've compiled resources for Kindergarten-Grade 3 students, including ready-made lessons, shows and printable activities, all designed to make at-home learning easier for kids and their parents.

Kindergarten Free Resources:

Spooky Halloween Matching: Watch and dance along while practicing matching skills, new vocabulary, numeracy (1–5), and fine motor skills like coloring, cutting, and gluing.

<https://teacherscorner.tv/66>

Fall Number Match: Watch an interactive *NumberBlocks* episode, practice identifying and matching numbers, and develop fine motor skills! <https://teacherscorner.tv/178>
